

COLLEGE READINESS TEST

How ready are you to travel and manage your son or daughter's college planning experience? Take the test; your results may surprise you.

Purchasing Power

1. **Have you established a clear “funding” strategy to finance the net price of college or career school?** Savings, disposable income, scholarships, and credit
2. **Have you analyzed your eligibility for need-based financial aid?** Obtained your Student Aid Index (SAI) number to project the net cost at a public/private in-state or out-of-state college?
3. **Do you have a working knowledge of how colleges administer tuition assistance and recruit students?**

Academic & Student Autonomy

4. **Can the student self-advocate and manage their tasks, activities, and deadlines, without parental intervention?**
5. **Does your student have dreams of attending one college or a certain type of college?** Is there room in their mind to consider unknown and second-tier high-caliber colleges?
6. **Is the student's interest in college intrinsic or extrinsic?** Is the student pursuing a specific path because they are genuinely curious, or is it for prestige, to satisfy family expectations, or out of peer pressure? What about you as a parent??

Emotional & Social Maturity

7. **Are you, the parent, ready for the "Consultant" role?** Prepared to "Manager" & "Nudge" the completion of tasks and activities to meet deadlines while handling work-life balance responsibilities?
8. **Does the student have the ability to look at things objectively?** Has the family discussed "The Plan B"? What happens if a 'waitlist or deferral' pops up? Is there a system in place to pivot and learn, or does the family dynamic lean toward crisis?

Results

If you answered the questions with confidence, absence of worry, congratulations, you're ready to shepherd the role of parents, advisor, and mediator.

If you paused, consider scheduling a Free Consultation Today!! **Call 617-240-7350**
